# HEART COLLECTION for PEACE PLEDGE PROJECT

In 2018 leaders of the world's major religious traditions along with scientists, educators and business visionaries came together in Greenland and Assisi as part of the Peace Pledge Pilgrimage Project.

We came to pray, celebrate, meditate and pledge to work together based on the principle that Loving- Kindness and Compassion can overcome discord and lead to human unity, a sustainable earth stewardship and peace.

Read more about the pilgrimage in the press release: <https://peacepledgeproject.org>

On this special journey photographer Filip Cederholm Agoo of 'Create the Change' supported us to promote positive visibility of reconciliation between all religious & traditional groups as one human community.

He created along with the participants in both Greenland and Italy a limited edition as a living testimony of these unique occasions.

He has donated the revenues of these pictures entirely to the Peace Pledge Pilgrimage Project.

## ***What is the Peace Pledge Pilgrimage Project?***

In 2014 one of the world's spiritual elders, Dr. Johannes Witteveen, convened spiritual leaders from all over the planet to establish the Universal Sufi Council.

Its mission includes the explicit promotion of the Universal values at the core of every major religious and faith tradition.

In 2016 the Council adopted an Affirmation of Shared Values ~ “The Peace Pledge” challenging all to commit to living loving kindness and compassion toward all lives.

The Universal Sufi Council started a series of active peace pilgrimages under the name Peace Pledge Project to sacred places to emphasize the need for Earth mind/heart Leadership to overcome the bigotry of religious and nationalistic prejudice with universal values.
