*When attuned to the unstruck music sounding in one's heart as an expression of Love,
And when responding in Harmony with that celestial melody
One is offering thereby, a true example of nature's Beauty.*

Date: 5 July 2017
Subject: Viladat Day

Every person has his life designed beforehand; and the light of the purpose that he is born to accomplish in life has already been kindled in his soul.

– Nirtan, Aphorisms –

An infant brings with it the air of heaven on earth.

– Vadan, Boulas –

July 5th is the birthday of our beloved teacher, guide, brother, friend and inspirer, Hazrat Inayat Khan; on this day in 1882, a baby was brought into the world in Baroda, India, warmly embraced by a family of music and culture. The purpose with which this soul was kindled has since touched countless people around the world, and its reach is still growing more than a hundred and thirty years after his birth. Every infant brings with it the air of heaven, and in the case of Inayat that special quality never left him. Today, let us celebrate his birth with gratitude and happiness, and most of all, let us remember that we are truly sisters and brothers with all those whose hearts have been touched by his smile.
