Federation Gathering Berlin 2016

18.–21. May

For the first time the Sufi Federation Gathering will take place in Berlin – the location is St. Michaelsheim on Lake Hubertus nestled in the green suburb of Grunewald – yet not far from the famous Kurfürstendamm. The venue not only offers spacious rooms for meetings but also room and board in a range of possibilities, with opportunity to enjoy walks in the park and by the borders of the lake. We suggest early registration – more details will follow soon.

»Reflecting on the Source«

The difference between human language and divine words is this, that a human word is a pebble: it exists, but there is nothing further.

The divine word is a living word, just like a grain of corn.

One grain is not only one grain: in reality it is hundreds and thousands, for in the grain there is an essence which is always multiplying, and which will show perfection in itself.
